Dear Parents/Carers,

Health Concern – Y6

Many thanks to all of you who responded to my recent letter and subsequently helped Environmental Health with their investigation.

Environmental Health have now confirmed, that norovirus was present in the samples they collected.

They could not confirm with certainty where the virus was picked up, however, they have passed on their findings to Natural Resources Wales for further investigation.

Since we were first alerted of the illnesses, we have been taking additional cleaning precautions to limit the spread of any virus in school. We still encourage good hand hygiene in school, and although it seems obvious, correct use of the toilets!

Thank you again for bringing this to my attention.

Kind regards.

A handwritten signature in black ink, appearing to read 'Steve Rayer'.
