

Rogerstone Primary Digital Code

We have expectations of our learners at Rogerstone Primary School when using digital equipment and devices. All pupils will be expected to agree to and follow this digital code in order to maintain access to their digital equipment.

We will maintain equipment by:

- Carrying equipment with 2 hands.
- Putting laptops back in trolleys and iPads in the correct place.
- Plug and unplug the equipment carefully.
- Keep equipment away from water bottles.

We will keep ourselves and others safe by:

- Telling an adult if we find an inappropriate website.
- Only using websites which an adult has told us to use.
- We only use the internet to look for things an adult has asked us to search for.
- Not sharing personal information.
- Not changing our background or profile picture.
- Always signing out of our school account.
- Following the instructions we learn both in and out of school.
