

5th December 2025

Dear Parents, Carers, and Members of the Rogerstone Community,

Re: Car Park and Road Resurfacing Works

Starting Monday, 8th December, and continuing for approximately two weeks, essential resurfacing work will be carried out on sections of the outer car park and the road leading into the school. These improvements are necessary to maintain the safety and quality of our site.

During this period, access to the outside car park will be very limited. To help us manage this safely, we kindly ask that, wherever possible, you:

- Walk to school, car share, or park away from the school site.
- Allow extra time for your journey to avoid delays.
- Be considerate to our neighbours by ensuring drives, pavements, and access points are not blocked.

Please note that access to the inner car park for children being dropped off to the LRB or blue badges access will continue as normal.

We appreciate your cooperation and patience during these works. While there will inevitably be some disruption, these improvements will significantly enhance the condition of the road and car park for the benefit of all.

Thank you for your understanding, patience and support.

Kind regards,

Dean Taylor - Executive Headteacher
Mairi Dunn - Head of School
